

Perfect as a storage solution to keep your commodities safe anytime!

GRAINPRO® COCOON INDOOR™

Features & Advantages

- Retains taste, color and aroma
- Preserves the quality of commodities for long periods of storage
- Protects against mold growth and insect infestation
- Ideal for Organic fumigation using CO₂, especially for infested crops
- Lightweight storage system for a wide range of commodities
- Fit for storage of organic products
- Size can be customized
- Sealed using airtight zipper
- Maintains germination and vigor of stored seeds
- Applicable for commodities in big bags and also in smaller bags with or without pallets

The GrainPro® Cocoon Indoor™ is a low cost yet effective version of the GrainPro® Cocoon™. It is made of Ultra-Hermetic and light weight Polyethylene material designed to preserve and protect the dry agricultural commodities stored indoors. It comes in various sizes and can be customized to effectively store different capacities of commodities in bags or in boxes.

This gas tight Cocoon Indoor™ is also ideal for CO₂ fumigation to immediately exterminate any insect in the commodity. The CO₂ can be flushed through the inlet port at the base of the Cocoon and excess air can be released through the zipper at the top.

GrainPro® Cocoon Indoor™ sizes are customized and tailored depending upon the client's need. Approximate capacity and dimension will vary upon the size requested by clients.
